Application No. 10/530,616

Continuation of 3. NOTE: In the final Office action (08/23/2007), claims 4 and 5 were indicated allowable "if rewritten in independent form *including all of the limitations of the base claim* and any intervening claims" (paragraph 8, emphasis added). Claim 4, if amended as proposed, would not include all of the limitations of the base claim. Specifically, the limitations "A(a) a core consisting essentially of a substantially transparent or metallically reflecting material and A(b) at least one coating consisting essentially of one or more silicon oxides" is not recited. As such, the scope of claim 4, if amended as proposed, is not identical to that of previously-pending claim 4 and requires further consideration to determine its patentability.

Continuation of 11. does NOT place the application in condition for allowance because: Applicant's arguments are drawn solely to the claims if amended as proposed. As noted above, the proposed amendment will not be entered.
